

## **Enhanced sanitization cleaning by Dryit.ca**

“Fresh and clean”

Quantifiable sanitization services specifically for IBAO members in Ontario

15% off for all IBAO members in Ontario

- High level dusting and cleaning
- All high touch surfaces are cleaned and sanitized
- Carpets and floors cleaned and sanitized
- Baseline adenosine triphosphate bioluminescence (ATP) technology testing that enables the user to assess the cleanliness of a surface and validate the efficacy of cleaning protocols pre post cleaning and sanitization
- Final adenosine triphosphate bioluminescence (ATP) readings post cleaning and sanitization
- HEPA air scrubbing while cleaning performed
- Office risk assessments for return to work and safety measures
